EVERY CHILD HAS THE RIGHT TO BE PROTECTED FROM
BEING HURT OR BADLY TREATED

This doesn't matter if it's based
on their sexuality, sex,
gender reassignment,
race, disability, pregnancy and
maternity, poverty and faith, etc.

No child deserves to be hurt or mistreated
and no young person should have to live in fear of abuse on a
day-to-day basis

Every young LGBTQ+ person has the right to live in a safe,
healthy environment where they are accepted.

ARTICLE 19

Many young queer people live in situations that would result in violence if they were to come out.

This means they cannot fully express themselves and be who they truly are.

Everyone plays a part in protecting others and helping others get out of bad situations.
